PROSPECTS FOR BIOMASS IN SOUTH-WEST

Prospective Member of Parliament for the Conservatives, Mr Philip Milton, is chairing a group on “Prospects for Biomass in the South-West” as part of “the Conservative Coppicing and Wood Fuels Summit 2009” to be held at Roadford Lake on 5 May 2009.

The event will be of particular interest to local businesses, landowners, councillors, the farming community and anyone with an interest in woodland conservation and bio-diversity and if you would like to attend, please register with Jessica.lennard@conservatives.com at earliest opportunity.

The Summit will be hosted by Shadow Minister for Climate Change, Gregory Barker MP. The programme starts of 8.45 a.m. with tea and coffee and is scheduled to finish at 12.30 p.m. There is no charge.

Says Philip “Green and environmental issues form a significant part of all of our futures. I have always been interested in the environment and its protection and combining this with efficient energy generation is imperative for all of our futures. The summit, in advance of the crucial European and County Local Elections will prove Conservatives’ commitment to these issues and I look forward to chairing a break-out group as well as learning more from experts in the field.”

The summit includes addresses from the RSPB, Regen SW and the Renewable Energy Association.

Published and promoted by Sir Richard Peek on behalf of the NDCA, The Strand, Barnstaple, N. Devon
EX31 1EU. Tel 01271 343101

Philip extends an invitation to all those with an interest in management and protection of our environment and he looks forward to demonstrating more of the Conservatives' plans and goals for alternative energy and environmental protection.
