Dear Sir

I was horrified to learn that South West Water is looking to move to the new system for charging for surface water.

In simple terms, this would mean that churches, charities, schools and other community groups could be hit by significant new bills, hitting these organisations and Council Tax payers at what is already a very difficult time.

I have petitioned South West Water to seek its view and to hope that soon it will announce a similar policy to United Utilities which is not changing its present charging structure at all.

Yours faithfully

Philip J Milton
